Abdul Samad
Cluster Sales Manager
Al Diar Hotels

Career highlights: A graduate of Bachelor of Science in Computer and a diploma holder in Hotel Management, Abdul Samad joined Best Western Hotel Group in India in 2001 as Management Trainee, where he gained illustrative experience in various departments. He was a Junior Lobby Manager when he left and started to explore new opportunities.

It was in 2005 when he moved to Abu Dhabi to join Al Ain Palace Hotel. In 5 years' time, he upheld various position in the mentioned hotel. With his utmost efforts and professionalism, he has gained the required knowledge that lead him to acquire key corporate clients.

In 2011, he joined Al Diar Hotels as Sales Manager handling various market industries that requires sourcing major business leads and maintain business relationship with travel & leisure companies, Oil & Gas companies, exhibitions, events and sports organisers, travel agencies and any other industries that could be potential for business partnership. A customer oriented with knowledge and experience in the flow of the competition in the market, he is surely well equipped for his position.

Let us get to know him a little bit more:

Highlight the most exciting part of your career: "One of the most exciting part of my career is witnessing Abu Dhabi hotels market fluctuation. I recall in 2007 when there was a huge demand of hotel rooms that 3 to 4 star hotels hiked up room rates from AED400 to AED800. Ironically, Abu Dhabi has a very small hotel rooms inventory during that period. It was the beginning of the peak period for Oil & Gas industry and the

time that Abu Dhabi was laying the foundation of the world class high infrastructure such as Reem Island, Saadiyat Island, other major landmarks and business construction projects. It was an exciting golden period for Hotel establishments to benefit from the developing market with a good Average Daily Rate (ADR) and high occupancy.

Forecasting the sudden increase on the demands of the hotel rooms, International chain luxury hotel brands rooted Abu Dhabi thus, resulted to increase the hotel inventory at the capital. To cope up with the growing number of competitors, the ADR of the same hotel rooms has declined and sold to an average at almost half the rates compared to the rates offered in 2017. Due to this major shift and fluctuation, the market has become more competitive and more challenging. The excitement continues as we strive hard to cope up and beat the market as well as the competitors."

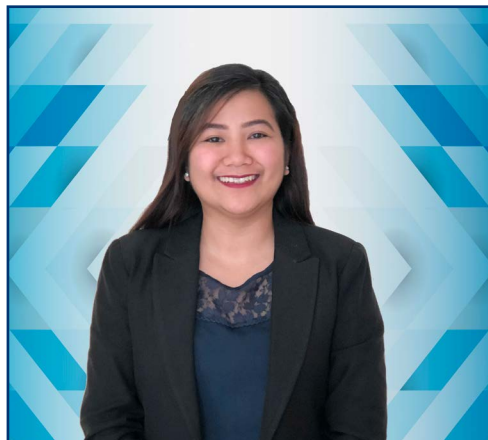

How do you see yourself in the future? "I am driven to achieve both of my goal and the company's objective. I would be pleased to use my skills to support and influence others. I would like to see diversify my skills, to contribute significantly to company's growth and become a successful team leader. If down the line there is opportunity for advancement which would take me to the higher level of responsibility based on my proven skills and wealthy experience. I would see myself accepting that most awaited chance. I am really passionate with what I do and I would love to mentor and guide other employees to grow and be successful within the assigned area as a Manager or any other higher level position.

Interest: To be of service to humanity in need and be of service to the people of God.
